

## Checking Google Page Rank

Contributed by Javier Yep Garcia  
Friday, 26 May 2006

In any seo job, you should always keep a look at the page rank of your site and your partners on linking sites. Many seo tools will help you check this page rank, you have the well known SeoElite, but you can also use this free online tool located at the [GoogleRankings.com](http://GoogleRankings.com), you will need to create a Free Google Api Key in order to use this online tool.

To be continued...
