Right now I can not say that Blackwood Productions is the problem of my low page rank, but I can say that my page rank has been gone from 6 to 0 after I started using the Blackwood Productions Network (webportal, webring, add link...)

Why should Google penalize a site that is displaying the set of links of Blackwood Productions in the footer? - I don't have the answer now... but lets see....

The update on this issue is here. (02 sept. 2009) but first read all the comments below, there is Rob Bibb also commenting on the issue, Rob Bibb is the owner of Blackwood Productions.
