Hello Webmaster and Friend! Here I post the instructions for 'How To Get Your Site Reviewed, Free'. Anyone can ask to have his/her site reviewed, free of charge, yes absolutely free of charge. Here are the instructions: 1 - You must have a twitter.com account, if you don't have it, create one, it's free and takes 1 minute, 2 - Once you are logged in twitter.com, follow me by going to my profile and click on the 'Follow' button, 3 - Then just browse any of my messages in twitter and 'reply' to any message you want and write a message like this: ' SEO: Hi Javier, please be kind and review my site when you have the time, thank you for your FREE SEO REVIEW <http://www.yoursite.com> ' (of course it doesn't have to be exact to the message above, because remember that you have only 140 chars to write in the twitter message box) BUT ATTENTION: The word SEO is required! in your message! Best Format: SEO: YourMessage, <http://www.yoursite.com> 4 - And finally, come here and send me a brief message notifying me that you have done the above and waiting for your Review. Good Luck!
